

Robert Wang

Los Angeles, CA | +1 (626) 609-8456 | rwang8456@gmail.com
robert.inl859.com | github.com/robwang8456 | linkedin.com/in/rwang8456/

Highlights

- Recent computer science graduate with 3+ years experience in full stack web development. Strong passion for machine learning, specifically reinforcement learning.
- Advanced knowledge in front end development concepts, such as React and Next.js, as well as Node.js, Bootstrap, Tailwind CSS, HTML5, and Git. Proficient with Redis, Prisma, PostgreSQL, MongoDB, and GraphQL. Moderate experience with reinforcement learning algorithms and machine learning with Scikit-learn and PyTorch.
- Proficient with JavaScript, TypeScript, and Python. Competent experience with Assembly, C, C++, Java, and Haskell.
- Familiar with development methodologies, especially Scrum, and the SDLC process

Education

UNIVERSITY OF CALIFORNIA, SANTA CRUZ

Santa Cruz, CA
March 2025

Bachelor of Science, Computer Science

Relevant coursework: Software Development, Machine Learning, Data Structures and Algorithms, Algorithm Analysis, Computer Graphics, Computer Architecture, Computer Systems Design, Programming Language, Software Development

Online Certifications

Sample-Based Learning Methods - University of Alberta, Alberta Machine Learning Institute, November 2023

Relevant skills: Specific reinforcement learning algorithms: TD learning, Q learning, SARSA, Dyna-Q

Fundamentals of Reinforcement Learning - University of Alberta, Alberta Machine Learning Institute, July 2023

Relevant skills: Reinforcement Learning, Markov Decision Process, Bellman Equations, Dynamic Programming

React Nanodegree - Udacity, October 2022

Relevant skills: React, Redux

Professional Experience

Full Stack Developer

Vancouver, Canada

BC 142434 (Tech Startup in Encrypted Video Communications)

December 2023 - February 2024

- Designed and built a responsive and efficient UI using React, TypeScript, Bootstrap, and WebRTC for a four-way encrypted video chat web application, enabling frictionless user video, camera, and mic control.
- Implemented Redis to streamline database architecture. Increased scalability and efficiency in logging, statistics keeping, system data recording and data persistence.
- Enabled language localization support for English and Simplified Chinese, allowing the company to expand into the Chinese-speaking market and adding hundreds of millions of potential users.
- Product URL: mslt.inl859.com

Marketing and Business Development Intern

Los Angeles, CA

ChargeFuze (IoT Startup in Consumer Goods Rental)

July 2021 - May 2023

- Collaborated with the software team to help incorporate Apple Pay to the company's payment system with Stripe APIs.
- Responsible for receiving customer feedbacks and driving continuous product improvements, including more user-friendly designs and broader payment methods. Cooperated with product team to implement improvements that resulted in 10% annual growth in revenue from music festivals and multi-year partnerships with Chase, Verizon, and Live Nation.
- Coordinated logistics, activations, and post-event load outs in California sporting and music events such as the Rose Bowl, Outside Lands, and BottleRock music festival, ensuring appealing product display and efficient operations.

Extracurricular Activities

Education Therapist

Pacific Palisades, CA

Lindamood-Bell

August 2022 - November 2022

- Applied specialized, research-based instructional techniques to teach reading comprehension, spelling, math skills, and learning strategies to students with dyslexia, autism spectrum disorder, and other disabilities.
- Provided personalized academic interventions and targeted tutoring to help students overcome learning gaps and achieve grade-level proficiency in core subjects. Helped 5 students increase their comprehension levels by around one grade level in 3 months.
